CETA FORM

Dear Ceta Form friend,

Welcome to the new edition of the Ceta Form catalogue which displays the latest state of our product range.

Please enjoy our new catalogue which showcases some new ground-breaking tools. Users in different industries have, as usual, been in the center of the long development process of all these new tools.

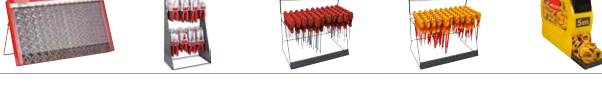

With strong in-house manufacturing capabilities, we have managed to shorten the route from the idea generation to product realization. Therefore, we will continuously be launching new product lines particularly for use in emerging sectors like electrical vehicles, automation, robotics and aerospace.

Keep watching Ceta Form, one of the fastest growing tool brands in Europe.

With Best Regards
Cemil Tayman – CEO

HAND TOOL EXPERT

Over the last 49 years, Ceta Form has established its position as a leading manufacturer of hand tools.

We design and produce high quality hand tools for the professional users in all sectors at our modern factories. In addition to our large domestic dealer network, we have distributors in 45 different countries with a dedicated sales office in UK.

WHY CETA FORM

Comprehensive Product Range

Our offer encompasses more than 4.500 lines in 15 product families. Thanks to the breadth of our range, we help our customers to operate with less suppliers and reduce their operating costs. . . a one-stop shop for hand-tools.

Product/Packaging Design

Ceta Form is a leader in the area of product design. Our tools are a perfect blend of functionality and aesthetics. Once customers experience the added efficiency from a good design, they stick with Ceta Form for life. Our packaging concept is also in-line with our tools: Convincing, lean and clear.

Logistics

Almost every product listed in our catalogue is available ex stock in our warehouse. This enables us to make rapid deliveries from our stock with a very high percentage fulfillment rate.

In-Depth Training Programs

We believe that tailoring training programs to suit our customers is the key to in-depth product knowledge. Training programs can be run either in our own factory which is equipped with modern training facilities or our customers' premises.

Innovative Company

Ceta Form is an innovator. We are constantly introducing new products with outstanding features to our range, in order to provide added value for the end-user.

Quality Manufacturer

Ceta Form is an ISO 9001 certified manufacturer. We use the highest quality materials and employ modern equipment in our production, utilizing strict quality controls in all critical processes. Result: our return ratio is less than 0.5%.

POS Display Solutions

We provide high-impact display systems for point of sale. We make it easier for the consumers to understand and purchase Ceta Form products - ultimately increasing your revenue per sqm.

Sales Support Department

Our experienced staff are here to respond to all your questions/queries. We treat all of our customers as we would our friends. We want to make working with Ceta Form a pleasure, a partnership for life.

MANUFACTURING COMPETENCE

With almost 50 years of experience in the development and production of hand tools and tool trolleys, Ceta Form stands for high quality standards and manufacturing excellence. In 2 different production locations, we run a variety of production technologies under one roof. Being an integrated manufacturer, we are able to keep a close eye on all critical processes.

This range incorporates blades with tiny diamond particles on the tip part. Hence, a very tight connection between the tip and the screw is guaranteed. Slipping off, which can cause problems when working on delicate materials, is therefore avoided.

Lu-MAX

Powerful and uniform illumination

Ceta Form has invested into a joint venture in Asia specialized in the production of LED work lamps in 2021. In this catalogue, we are pleased to show the range manufactured in this plant – truly better in design and performance. Thanks to the capabilities this new plant will provide, we aim to be an important player in the ever growing LED work lamp market.

100% CETA FORM Design

All work lights in this section excluding the flashlights are concept designed in the Ceta Form design labs. The electronic engineering is done by our expert team in the Weihai factory.

The Ceta Form Guarantee

Ceta Form offers a total quality guarantee for its tools against defects in material or workmanship. This guarantee covers the free repair or replacement of the faulty tool.

This guarantee is not valid for tools which have been misused or abused. A tool's normal wear and tear in the expected reasonable lifetime is also exempt from guarantee.

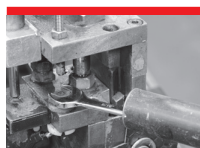

Exceptions of the Ceta Form Guarantee

Tool cabinets, tool cases, torque wrenches, tape measures, utility knives, lighting equipment, cutting tools and wire brushes are covered by a 2 year warranty against failures due to production defects.

Consumable items such as bits, hole saws, files, utility knife blades, hacksaw blades, jigsaw blades, plastic hammer heads and hand riveter spares are covered by a limited warranty only. This warranty is valid if the product is unusable when it is in new condition due to a possible production defect.

Examples of Improper Use

Compliance to the below mentioned instructions and avoiding misuse will ensure that your tools will serve you without any problems for years. This will also keep our warranties valid. In the event that our tools fail due to the one of the below shown types of misuses, the warranty will be invalid.

Never use extensions on tools unless it is specified that it is appropriate.

Ring ends of ratcheting combination wrenches should be used for rapid tightening. It is recommended that you use the open end for high torque final tightening.

Torque wrenches signal with a "click" sound when the preset torque is reached. Further application of power after this signal may destroy the ratchet or the spring mechanism.

Never use chromed sockets on impact wrenches. Use only impact sockets which are black coloured on impact wrenches.

Do not use your screwdriver as a lever or a chisel. Avoid exerting excess torque through using the hanging hole as a lever.

Always select the right type of screwdriver or screwdriver bit for the type of screw you are using. Too small or too big a screwdriver/bit compared to the screw may destroy the tool or the screw. Also be careful about the distinction between Phillips and Pozidrive screws.

Do not use pliers and cutters for cutting materials larger than the permissible capacities. Avoid short circuiting when working on live circuits as this may destroy the cutting edges.

Do not use cable shears to cut materials other than copper. Always conform to the cutting capacities when working on copper wires.

Do not use hammers on a material whose hardness is higher than the hammer head (50-58 HRC).

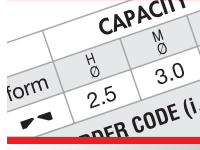

Tape measures should be used as a precision instrument. When being used in construction environment involving building chemicals etc., ensure that the tape is clear when rewinding. Keep away from water and moisture as this might rust the blade.

Do not use tools other than hammers for striking purpose.

Do not alter the sizes and dimensions of your tools.

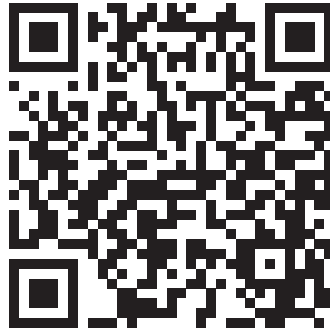

Please conform to the capacities listed throughout the product tables.

The torque power of ballpoint hex tools is lower compared to normal hex tools. Please use them accordingly.
